A Lifetime of Literacy!

Series consultant and author of the Red Rocket reading series, Pam Holden has more than 30 years specialist experience in literacy. As a Reading RecoveryTM teacher she has worked one-to-one with hundreds of children struggling with literacy.

Pam's pupils have also included those approaching English as a second language, and children who are advanced and require extension. This experience has given the author a rare insight into the literacy process and has enabled her to develop new and unique approaches that ensure early reading success.

Teacher Tools

Within each Red Rocket Reader is a set of useful tools designed to support and guide the teacher:

Teacher Talk gives a brief introduction and overview of each story (its characters, plot, scene and vocabulary), to aid group discussions.

Teaching Plan lists the reading strategies promoted in each text, plus the features of print to learn such as punctuation, suffixes, digraphs, contractions and compound words.

Color Coded Levels allow children and teachers alike to see at a glance which level a book belongs to, making filing and title selection simple.

Sight Words are listed on the inside front covers so teachers can see at a glance the focus for each title.

Word Counts on the inside front covers simplify running records.

Extension Activities on the inside back covers provide extra learning opportunities.
