## IB MAPPING

Our books fully support all areas of the UK curriculum, but we don't stop there. We have mapped every title to the International Baccalaureate too – our books travel all over the world, so we make sure they work wherever you are. All IB information has been drawn from the IB website at [www.ibo.org](http://www.ibo.org). We recommend our titles for the IB PYP programme, and you can find this information at the bottom of every page, tracked to outcomes for International-Mindedness, the Six Trans-Disciplinary Themes, and the Six Subject areas. We are not endorsed by IBO in any way.

### IB Curriculum Reference Key:

International Mindedness

Six Trans-Disciplinary Themes

Six Subject Areas

## BOOK BAND LEVELS

Book Band levels offer a graduated literacy scheme that helps teachers to assess their pupils' reading abilities.

All our titles have been assessed and graded by Book Band specialists from the very simplest format at band lilac, to the highest ability titles at band black.

Lilac	Purple
Pink	Gold
Red	White
Yellow	Lime
Blue	Brown
Green	Grey
Orange	Dark Blue
Turquoise	Burgundy
	Black

# BookLife PUBLISHING

**BookLife Publishing was born from a simple idea: putting children at the heart of our books.**

That's why our books are so unique – from Pigs Might Fly to Why Do I Poo?, we're always looking for a new angle that children all over the world will love. Our unique, award-winning style and creative approach to non-fiction means our books are never dry – and they always make a splash!

We're always pushing our creativity to make the next best book ever – unlocking imaginations, creativity and critical thinking in everything we do. From reluctant readers to the most dedicated bookworms, we believe there is a book out there for every child – and if there isn't yet, then we'll make it!

GO TO [WWW.BOOKLIFEPUBLISHING.CO.UK](http://WWW.BOOKLIFEPUBLISHING.CO.UK) TO KEEP UP TO DATE ON WHAT WE ARE WORKING ON NEXT!

# EXPLORING SCIENCE

## EY STEP INTO STEM

Use all your senses to discover the wonderful world of science in this beautiful photographic series. Little learners can explore the big wide world and the science behind the wonders it has to offer. From forces to feathered friends, come with us as we Step into Stem!

## KS2 STEM IN OUR WORLD

Can you imagine going on a trip into space? What about flying along at 300 miles an hour in a levitating train?

Or clinging onto your seat at a 4D movie? Thanks to STEM, soon you can do all this and more! Science, technology, engineering and maths are bringing new toys, tools and technological gadgets into our everyday lives. Come and meet Professor Tess Tube, and join her STEM School, where you will learn about the amazing gadgets and gizmos that are all around us. STEM in Our World is an exciting and engaging series looking at new and future technologies. Combining current science with futuristic imagination, this informative series aims to reach out to the engineers and inventors of tomorrow with STEM subjects today.

# SILLY SCIENCE FOR SMART KIDS

Science is smart, right? Science helps people understand important but boring things, right? Well, sometimes very smart people answer very stupid questions with very strange science. So if you have ever wondered what would happen if you started to cry in space, or if you ran on a sea of custard, then this is the series for you.

## KS1 A WORLD WITHOUT

AVAILABLE AS  
PAPERBACK

What could you live without? You could live without chocolate or TV, right? Those things are easy to lose. But what about a world without any sunlight or rain falling from the skies? Could you live in a world where plants or animals had disappeared? Discover what it would be like to live in a world without the most important parts of everyday life in this weird and wonderful series.

## KS2 THE MUSEUM OF PHOBIAS

The museum of phobias is always open. Will you find your phobia lurking in its corridors? Learn the science behind why we get scared, but be careful – only the bravest can make it to the end of the book. Come and see the entomophobia exhibit on the 2nd floor – it has 200 types of insect. Check out the thalassophobia exhibit in the basement – you'll find out what that means when you get there...

## KS1 ENDANGERED ANIMALS

Many of the world's animals are finding it harder and harder to survive. Deforestation, pollution, hunting and climate change are all problems that lots of animals are facing today. Learn all about endangered animals in the Arctic, from their IUCN status, to what's being done to help them. Polar bears, walrus, blue whales and reindeer all need our help, what can we do so that we don't lose them forever?

## KS1 UNDER THE MICROSCOPE

Look a little closer... This exciting series zooms in on the little things in life. Peek through the microscope and take a look at the tiny things all around us: the amazing little lives of bacteria and viruses, fungi and parasites. How many bacteria are there on a human hand? What viruses can be found on a mobile phone? And what is living in your eyelashes? Not for the faint-hearted, this series looks at little critters we all live with, and can't live without.

## KS1 FUEL UP!

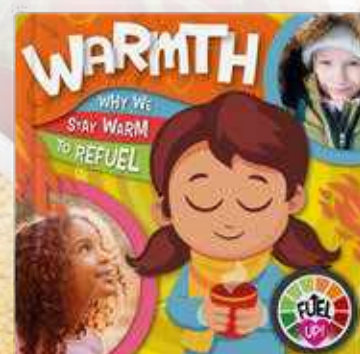

What do you do if you are hungry? You eat something of course! We all quench our thirst with a drink and go to sleep when we are tired. Our bodies need all sorts of fuel in order to work and be at their best. But why does this happen? And what happens if we don't get everything that we need? Get ready to fuel up and learn all about the fuel we need.

## KS2 LIFE-SAVING SCIENCE

This series explores science that saves lives. We take a look at the discovery and development of important technologies such as scans and vaccinations, and explore the impact on survival rates as a result. Taking a look at the diseases and illnesses treated by these marvels of medicine, we explore case studies and find out how discoveries such as antibiotics and anaesthetics changed medicine forever.

## KS1 FARMER LLAMA'S GUIDE TO FARM VEHICLES

Now hiring new farmhands! Aggie, your Farmer Llama friend, is here to teach you everything you need to know to get the job done here at Happy Valley Farms. Farmers feed the world – but with seven billion people to feed, how do they get the job done in time? Let Aggie be your guide as you learn the basics (the history of hay) right through to advanced lessons (just stay out of the way of the self-driving tractors...), and don't forget to get your Llama-diploma! Start your engines... let's go!

## HEALTHY MINDS

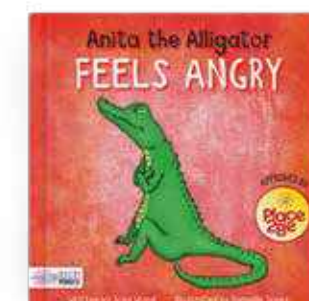

These beautifully illustrated titles look at our emotions through a series of original stories. With a blend of full-colour photography and original illustrations, these books take us on a journey through some common mental health issues, and show us what it's like when an anxious rabbit won't leave you alone, or a jumpy monkey won't let you concentrate. Readers can learn about the effects of living with certain conditions and explore coping strategies in an interesting and creative way, through stories, facts and pictures in these inventive and accessible titles. Developed with support from leading children's mental health professionals and key workers.

## KS1 KEY WORKERS

What are the most important jobs in the world? In this series you will meet the key workers; these are the people who do very important jobs. Even when the rest of the world might stop, we need these workers to keep going. From the nurses in hospitals to the farmers growing food, these are the people that we can never do without.

## KS1 CHARITY & GIVING

This factual series has been developed with direct input from some of the world's major charities to introduce young readers to charity, giving and fundraising. We take a look at why charities exist, who and what they support, and how they raise money, and we give young activists ideas on how to get involved and support their favourite charities. This interesting series helps young readers engage with the wider world and consider far-reaching topics from a charitable perspective.

## KS1 HOW TO BE AN EARTHLING

Meet Bo and Zop, two scouts from the Omega Quadrant, on a mission to monitor Earth! Their job is to find out all about us Earthlings, to see if we are friendly enough for a visit from the aliens of Omegatron. However, Bo doesn't seem to understand us at all! Can Zop show Bo what it means to be an Earthling? Explore PSHE themes in a fun and interesting way with this lively series.

## KS2 WORLD CHARITIES

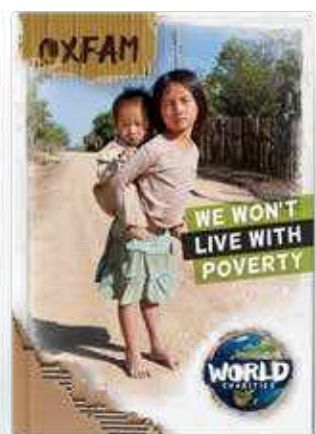

Developed with direct input from some of the world's major charities, these eye-catching titles introduce the purpose and work of some of the most famous charitable groups on the planet. On topics such as the environment, animal conservation and humanitarian work, we have worked to look in-depth at the history, mission statements and valuable work of activists, workers, educators and volunteers saving and changing lives around the world today. Young readers can learn how to get involved, from starting conversations to raising money and awareness of these incredible organisations.

## KS1 FOREST EXPLORER

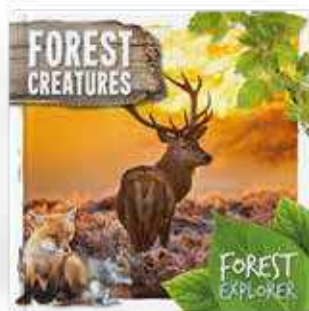

Let's take a trip into the woods to see what we can see; there's bugs and birds and animals all living in a tree. Fuzzy moss and splashy streams; mud and sticks and stones... underneath a rotting log, the mushrooms make their home. So pick up your binoculars and won't you come with me: let's all explore the forest – we'll be home in time for tea!

## KS1 ECO JOURNEYS

When we throw a drinks can in the rubbish, it goes straight into landfill. But for a drinks can, there could be a new life awaiting it. When we recycle a drinks can, it goes on an eco journey as it gets turned into something new. Help to save the planet, recycle that drinks can and find out about its eco journey.

## KS2 DISASTROUS DEATHS

AVAILABLE AS  
PAPERBACK

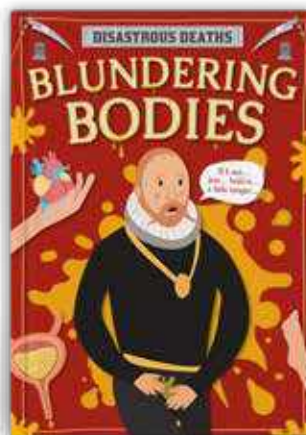

If you've been looking for a compilation of stupid, comical deaths from throughout history, look no further. Disastrous Deaths is the set of books for you. Find out just how these unfortunate people met their sorry ends... Were they taken out by an awful accident? Maybe they had a run-in with some atrocious animals. Were they foiled by their own blundering bodies? Perhaps some frightful food was the reason for their demise. No matter the cause of death, you'll be left hoping that you don't go the same way...

## BOOKLIFE: READERS

FULLY  
DECODABLE  
BOOK  
BANDED

Our own exciting and unique Readers offer a consistent approach to learning and will captivate and engage children from the very first page. Carefully written to adhere to the DfE's Letters and Sounds programme, each title is fully decodable and is perfectly aligned to Phases 2–6. The imaginative stories, creatively penned by our own authors, are brought to life with sensational, full colour illustrations from a range of talented illustrators.

Beginning with the very basics of phonically decodable reading, the series gradually develops the reader's ability, building confidence at every stage, to create fluent and confident readers. Each book contains handy hints for teachers/parents and has several FREE accompanying resources available online.

In addition to being matched to Letters and Sounds, each title has a book band level between Lilac and Lime. As the reader moves through the levels, the number of pages, level of repetition and sentence structure complexity all advance at a rate which encourages development without halting enjoyment – the perfect recipe for reading for pleasure.

## INTRO TO PHASE 5

BookLife Readers have been specifically created in line with the way that children are taught to read in schools and we know that leap up to Phase 5 is one of the biggest hurdles developing readers face which is why we have created a special range of titles to bridge this gap.

Our 'Intro to Phase 5' range has a unique focus on the main key sounds that are bought in at this level.

Allowing the reader to **master** the sound before progressing to the full range avoids the overload which all new readers struggle with.

Each title has been beautifully illustrated to maximise reader engagement.

# BookLife Non-Fiction Readers

**FREE  
RESOURCES**

The BookLife Readers Non-Fiction range utilises the very basics of **phonetically decodable reading** alongside high-interest, factual topics which bring the world around them to life. In line with the fantastic new BookLife Readers fiction titles, these books begin with the earliest phonemes and follow the prescribed format used in the recognised **Letters and Sounds** educational document with the use of some additional words. Due to the need to adhere to factual accuracy, additional words and sounds have had to be sensitively incorporated, however, through the use of reinforcement, repetition and clear imagery, the reader is able to successfully navigate the book.

The BookLife Readers Non-Fiction range is currently undergoing a huge expansion due to popular demand and this **fact-filled, exciting** reading scheme will soon offer **over 100 top titles** from book band colours Lilac to Lime.

Age: 7–11y  
129 x 198mm

ABOUT THE AUTHOR

David Bedford was born in Devon, in the south-west of England in 1969. David wasn't always a writer. First, he was a football player. He played for two teams: Appleton FC and Sankey Rangers. Although these weren't the worst teams in the league, they never won anything! David has always loved to read and decided to start writing stories himself. After a while, he left his job as a scientist and began writing full time.

ABOUT THE ILLUSTRATOR

Keith Brumpton is a successful illustrator and author who produced the fun and quirky illustrations for The Team. Keith lives in the north of England where he continues to apply his creative talent. He now also writes for TV, and has worked on multiple successfully broadcast children's programmes.

KUNG-FU PIGS

Meet the Kung-Fu pigs – Rinki, master of the sword; Dinki, skilled with a fighting staff; and Stinki, deadly with a bow. These fearless warriors are always ready to protect the people from evil. Join them as they defend Emperor Ping-Pong from vampire squirrels, throw rice at temple ghosts and fight the evil general Gung-Ho. These brave pigs will always answer the call of the gong.
