BookLife Readers

The BookLife Readers begin with the very basics of phonetically decodable reading. Starting with the earliest step of CVC words – words comprising a consonant, a vowel and a consonant – and building on this combination slowly, the reader follows a prescribed format taken directly from the recognised Letters and Sounds educational document.

By aligning our books with Letters and Sounds, we offer our readers a consistent approach to learning, whether at home or in the classroom. Books levelled as 'a' are an introduction to the band. Readers can advance to 'b' where graphemes are consolidated and further graphemes are introduced. The illustrations guide the reader, helping to deliver reading progression through the scheme in a **colourful** and **exciting** way. As a reader moves through the book band levels, the page numbers, level of repetition and sentence structure complexity all advance at a rate which **encourages** development without halting enjoyment.

To find out more about this exciting new reading scheme, please email MMS on info@mms-publishing.com or phone on **+44 20 8898 5211**

BookLife Readers Non-Fiction

The BookLife Readers Non-Fiction range utilises the very basics of **phonetically decodable reading** alongside high-interest, factual topics which bring the world around them to life. In line with the fantastic new BookLife Readers fiction titles, these books begin with the earliest phonemes and follow the prescribed format used in the recognised **Letters and Sounds** educational document with the use of some additional words. Due to the need to adhere to factual accuracy, additional words and sounds have had to be sensitively incorporated, however, through the use of reinforcement, repetition and clear imagery, the reader is able to successfully navigate the book.

The BookLife Readers Non-Fiction range is currently undergoing a huge expansion due to popular demand and this **fact-filled, exciting** reading scheme will soon offer **over 100 top titles** from book band colours Lilac to Lime.

INTRO TO PHASE 5

22 'INTRO' TITLES AVAILABLE NOW

BookLife Readers have been specifically created in line with the way that children are taught to read in schools and by working with teachers we know that the leap up to Phase 5 is one of the biggest hurdles developing readers face. This brand-new range of 'Intro' books has been created specifically to help developing readers bridge this gap.

In reaction to all the requests we received directly from teachers and educational professionals, we have developed 22 uniquely created books, each focusing on one of the core sounds which feature at this level. By focusing on one sound instead of bombarding new readers with everything at once you can allow your reader to learn and master the new sound before progressing. We are confident that this levelled approach to learning will build confidence in your new readers and develop their skills at a far greater pace and with a better level of understanding.

ALLOWING READERS TO MASTER SOUNDS BEFORE PROGRESSING ENABLES

Blue – Level 4

Aligned with phase 3 and 4 of Letters and Sounds.

- 26 pages per story
- 1 story per book
- 10–15 words per page
