- This heartwarming tale offers an entertaining and relatable experience which helps find the perfect ending, leaving readers wanting to create their own stories.
- This creative adventure features vibrant and engaging artwork that will draw readers into the story and encourage the use of their imaginations.

ADVANCE INFORMATION SHEET

Birdy’s Tale of a Story

By (artist) Sally Small

Birdy, a creative thinker, has an idea to write a book with George, her quirky sidekick, which takes the pair on a fun-filled, and surprising adventure.

“Birdy’s Tale of a Story” is a book that encourages children to write, conceptualise or illustrate a story. The book’s aim, with some assistance from our heroine “Birdy” and her faithful Cavoodle “George”, is to help organise a child’s thoughts and ideas when structuring a narrative. This book focuses on the basic elements that comprise a good story: setting, characters, problem, climax, and resolution.

Sally Small is a Graphic Designer and Illustrator based in Sydney, Australia. She has been a creative professional for over 15 years and has an established portfolio in print, web, illustration & brand design. Having worked as a freelance designer, with agencies, small businesses, government departments and as part the of marketing team in large corporate businesses, Sally has developed a strong understanding of brand communication, problem solving and how to deliver clear messages. She has a great passion for books and a particular interest in designing and illustrating for children literature.
