STEM is Everywhere

TITLE:

Energy Sources: From Coal to Renewables

PUBLICATION DATE:

May 2026

AUTHOR:

Warren Singer

ISBN:

978-1-761402-08-1

PRICE:

GBP £13.99 | AUD \$29.99

FORMAT:

EXTENT

Hardback, 270x216mm

32 pages

SUBJECT AREA:

Technology, Environment,
Renewable Energy, Electricity

AGE:

THEMA:

CMBC:

9-12

YNTE, YXZG, YPMT3

D5N79

RIGHTS AVAILABLE : World ex Au

There are so many ways that electricity is generated, it's hard to keep track of them all. Find out everything you need to know about where the electricity you use really comes from, and how the power that comes out of your power point may have been generated from some unexpected sources.

KEY SELLING POINTS

- Images and infographics that extend the text information
- Bring young readers up to date on renewables
- Science facts explained in child-friendly language
- Content that relates the subject to everyday life
- Index and glossary of new words

STEM stands for science, technology, engineering and mathematics, and it is not just for scientists. The concepts we learn by studying STEM subjects can explain the existence of the whole Universe, including us and our daily lives. In this series, you will find out how easy STEM is to understand and discover how you can see it in action every second of every day.
