

LET'S EXPLORE FOXES

Urban Wildlife Explorers

Discover why foxes have sensitive whiskers on their legs, what they have in common with cats, and how adult foxes bring their cubs toys to play with! Bursting with humour, fascinating science, and beautiful watercolour illustrations, this book carries readers through parks, streets, and city gardens to meet the animals living right under our noses. For budding naturalists and animal lovers, this is the perfect guide for young urban explorers!

THIS BOOK COMES WITH:

- KS1 and KS2 curriculum-related information for classroom use
- A fun craft activity . . .

“A wonderful book – it's fun, beautifully illustrated, and engaging for people of all ages.” Steve Schechter, author of *Where Do Spiders Come From?*
